

FRONTLINE LTD. REPORTS RESULTS FOR THE FOURTH QUARTER AND YEAR ENDED DECEMBER 31, 2016

Frontline Ltd. (the "Company" or "Frontline"), today reported unaudited results for the three months and year ended December 31, 2016:

Highlights

- Achieved net income attributable to the Company of \$18.3 million, or \$0.12 per share, for the fourth quarter of 2016 and \$117.0 million, or \$0.75 per share, for the year ended December 31, 2016.
- Achieved net income attributable to the Company adjusted for certain non-cash items of \$34.5 million, or \$0.22 per share, for the fourth quarter of 2016 and \$188.9 million, or \$1.20 per share, for the year ended December 31, 2016.
- Announces a cash dividend of \$0.15 per share for the fourth quarter of 2016.
- Completed a public offering generating gross proceeds of \$100.0 million in December 2016.
- Frontline, together with its affiliates, acquired approximately 16.4% of the outstanding common stock in DHT Holdings, Inc. (NYSE: DHT).
- In January, Frontline approached DHT with a proposal for a possible business combination whereby the Company would acquire DHT in a stock-for-stock transaction, which was declined by DHT's Board.
- In February, Frontline presented an improved and final offer of 0.80 Frontline shares per DHT share, which was declined by DHT's Board.
- Agreed with Ship Finance to terminate the long term charter for the 1998 built VLCC Front Century upon the sale and delivery of the vessel to a third party.
- Acquired two VLCC resales delivering Sep and Oct 2017 from DSME, Korea at \$77.5 million net per vessel

Robert Hvide Macleod, Chief Executive Officer of Frontline Management AS commented:

"The improvement in crude tanker rates in the fourth quarter was attributable to seasonality as we approached winter in the Northern Hemisphere as well as a strong increase in OPEC volumes ahead of the implementation of production cuts. We remain of the opinion that 2017 will see pressure on freight rates as further newbuildings are delivered. As DHT's largest shareholder we are surprised that DHT's Board has declined our repeated attempts to discuss a business combination that we believe is clearly in the best interest of all shareholders. We continuously evaluate various ways to expand our fleet and are pleased to have acquired two VLCC resales at historically low prices without adding to the size of the global fleet. We continue to maintain our leading position in the tanker market, supported by our very low cash breakeven rates, large commercial scale and consistent access to capital. These are clear differentiators that the market has consistently ascribed value to."

Inger M. Klemp, Chief Financial Officer of Frontline Management AS, added:

"Frontline's newbuilding program as of December 31, 2016 is fully financed. The Company has already initiated dialogues with banks to finance our two newly acquired resale VLCCs and are confident that we will be able to secure financing at attractive terms."

- (vi) three MR product tankers that are chartered-in on short term time charters with a remaining duration of less than two months;
- (vii) five vessels that are under the Company's commercial management (two Suezmax tankers and three Aframax oil tankers); and
- (viii) 16 newbuildings, comprised of three VLCCs, six Suezmax tankers and seven LR2 tankers.

As of December 31, 2016, the Company had entered into the following time charter-out contracts for 11 vessels:

In November 2016, the Company agreed with Ship Finance to terminate the long term charter for the 1998 built VLCC Front Century upon the sale and delivery of the vessel to a third party. Ship Finance has simultaneously sold the vessel to an unrelated third party. The Company expects the vessel to cease operating as a conventional tanker, and the charter with Ship Finance is expected to terminate in the first quarter of 2017. The Company has recognized an impairment loss of \$27.3 million in the fourth quarter and expects to record a gain on the termination of the long term charter with Ship Finance of \$20.3 million in the first quarter of 2017.

Newbuilding Program

In October 2016, the Company entered into an agreement with STX Offshore & Shipbuilding Co. Ltd. ("STX") to terminate the contracts for four VLCC newbuildings. The contracted price of these vessels was \$364.3 million, of which the Company had paid installments of \$45.5 million. Following the contract terminations, the Company was released of any and all obligations relating to the contracts and was refunded all installment payments made to STX, less a \$0.5 million cancellation fee per vessel. The Company recorded a loss of \$2.7 million relating to the contract terminations in the third quarter.

As of December 31, 2016, the Company's newbuilding program comprised three VLCCs, six Suezmax tankers and seven LR2 tankers. As of December 31, 2016, total instalments of \$284.4 million had been paid and the remaining commitments amounted to \$684.1 million all of which are payable in 2017. All newbuildings are expected to be delivered in 2017.

In January 2017, the Company took delivery of the Suezmax newbuilding Front Classic and the LR2 newbuildings Front Antares and Front Vega. In February 2017, the Company took delivery of the VLCC newbuilding Front Duchess.

In February 2017, the Company acquired two VLCC resales under construction at Daewoo Shipbuilding & Marine Engineering ("DSME") at a net purchase price of \$77.5 million each. The vessels are due for delivery in September and October 2017.

Financing Update

In December 2016, the Company signed a senior secured term loan facility in an amount of up to \$110.5 million with Credit Suisse. The facility matures in 2022, carries an interest rate of LIBOR plus a margin of 190 basis points and has an amortization profile of 18 years. The facility will be used to part finance two of our existing VLCC newbuilding contracts.

In February 2017, the Company signed a senior secured term loan facility in an amount of up to \$321.6 million. The facility will be provided by China Exim Bank and will be insured by China Export and Credit Insurance Corporation. The facility matures in 2033, carries an interest rate of LIBOR plus a margin in line with Frontline's existing loan facilities and has an amortization profile of 15 years. This facility will be used to partially finance eight of our newbuildings and will be secured by four Suezmax tankers and four LR2 tankers.

Frontline has committed bank financing to partially finance all of the Company's 16 newbuilding contracts as of December 31, 2016. Frontline has initiated a dialogue with banks to finance the two DSME Newbuildings and is confident that it will secure financing at favorable terms.

Corporate Update

On December 16, 2016, the Company completed an offering of 13,422,818 new ordinary shares at \$7.45 per share ("the Offering") generating gross proceeds of \$100.0 million.

In January 2017, Frontline approached DHT Holdings, Inc. (NYSE: DHT) with a non-binding proposal for a possible business combination where Frontline would acquire all outstanding shares of common stock of DHT in a stock-for-stock transaction at a ratio of 0.725 Frontline shares for each DHT share. The proposal was declined by DHT's Board. Frontline, together with its affiliates, also acquired 15,356,009 shares of DHT, representing approximately 16.4% of DHT's outstanding common stock based upon 93,366,062 shares of common stock outstanding. In February 2017, Frontline presented an improved and final offer of 0.80 Frontline shares per DHT share, which was also declined by DHT's Board.

The Company announces a cash dividend for the fourth quarter of 2016 of \$0.15 per share versus an earnings per share of \$0.12 and an adjusted earnings for certain non-cash items of \$0.22 per share. In total for 2016 the adjusted earnings per share is \$1.20 versus a dividend of 0.85 per share, reserving a total of \$0.35 per share of the earnings for growth.

The record date for the dividend is March 13, 2017. The ex-dividend date is March 9, 2017 for shares listed on the New York Stock Exchange and March 10, 2017 for shares listed on the Oslo Stock Exchange, respectively and the dividend will be paid on or about March 23, 2017.

169,809,324 ordinary shares were outstanding as of December 31, 2016, and the weighted average number of shares outstanding for the quarter was 158,720,909.

Fourth Quarter and Full Year 2016 Results

The Company generated net income attributable to the Company of \$18.3 million, or \$0.12 per share in the fourth quarter compared with net income attributable to the Company of \$5.5 million, or \$0.03 per share, in the previous quarter. Net income attributable to the Company adjusted for certain non-cash items was \$34.5 million, or \$0.22 per share, for the fourth quarter of 2016. These non-cash items consisted of a vessel impairment loss of \$27.3 million relating to the 1998 built VLCC Front Century (the lease with Ship Finance for this vessel is expected to terminate in the first quarter of 2017 at which time a lease termination gain of \$20.3 million will be recorded), a provision for uncollectible receivables of \$4.0 million and a gain on derivatives of \$15.1 million. Net income attributable to the Company in the third quarter included a vessel impairment loss of \$8.9 million, a loss on cancellation and sale of newbuildings of \$2.7 million, an impairment loss on shares of \$0.3 million and a gain on derivatives of \$0.9 million.

Total ship operating expenses of \$26.8 million in the fourth quarter were \$4.0 million lower than the previous quarter primarily due to delivery of six MR tankers to the buyer in the third and fourth quarters.

Contingent rental income in the fourth quarter relates to the charter party contracts with Ship Finance and is due to the fact that the actual profit share in the fourth quarter of \$6.8 million was \$7.2 million less than the amount accrued in the lease obligations payable when the leases were recorded at fair value at the time of the merger with Frontline 2012.

The Company generated net income attributable to the Company of \$117.0 million, or \$0.75 per share in the year ended December 31, 2016 compared with net income attributable to the Company of \$154.6 million, or \$1.29 per share, in the year ended December 31, 2015. Net income attributable to the Company adjusted for certain non-cash items was \$188.9 million, or \$1.20 per share, for the year ended December 31, 2016. These non-cash items were a loss on the cancellation and sale of newbuildings and vessels of \$2.7 million, a vessel impairment loss of \$61.7 million, an impairment loss on shares of \$7.2 million, a provision for uncollectible receivables of \$4.0 million and a gain on derivatives of \$3.7 million. Net income attributable to the Company in the year ended December 31, 2016 reflects the combined results of Frontline and Frontline 2012 while net income attributable to the Company in the year ended December 31, 2015 relate to Frontline 2012 only for the eleven months ended November 30, 2015 and the combined results of Frontline and Frontline 2012 for December 2015.

As of February 2017, the Company estimates that the average daily cash breakeven rates for the remainder of 2017 will be approximately \$22,300, \$17,300 and \$15,500 for its owned and leased VLCCs, Suezmax tankers and LR2 tankers, respectively. The Company believes these rates are highly competitive.

A reconciliation of net income attributable to the Company to net income attributable to the Company adjusted for certain non-cash items for the fourth quarter of 2016 and the year ended December 31, 2016 is as follows:

Strategy and Market Outlook

While capacity additions to the global tanker fleet are expected to put pressure on rates over the next 12 months, the Company maintains a positive long term outlook on the tanker market.

The Company believes that the market will begin to tighten in 2018 as the delivery of newbuilding vessels abates and vessels are retired from the global fleet. We expect vessel scrapping to begin to pick up as we progress through 2017, particularly in light of the implementation of the ballast water treatment convention later this year. Some vessels may also be dry docked ahead of the implementation date of the convention in order to defer the cost of compliance. This may have the effect of temporarily removing supply from the market.

Importantly, demand for crude oil continues to increase, and the US Energy Information Agency has forecasted average demand growth of approximately 1.57mb/day per year through 2018. Should the OPEC and non-OPEC production caps remain in force, we expect trade routes to continue to trend towards long haul voyages from the Atlantic basin to Asia. Any such scenario will develop over time, and we are cautious in the near term. All factors considered the Company believes the tanker market will begin to balance as vessels are absorbed into the global fleet and older vessels retire from trading. In the meantime, the Company expects that periods of market weakness will inevitably create attractive opportunities to acquire assets at historically low prices.

During 2016 we have experienced a sharp decline in asset values and the board believes there are several attractive growth opportunities in today's markets. These opportunities include buying vessels on the water, newbuild/resales as well as buying shares and companies. During 2016 the Company significantly strengthened its investment capacity, including raising \$100 million in equity and selling its fleet of six MR product tankers. In addition the board has used its discretion to reserve a portion of the adjusted earnings per share for growth.

The Company believes it is in a unique position to further grow its operating fleet and continue to generate substantial returns to its shareholders in a strong tanker market and healthy returns in a more muted market. The Company has a long track record of doing so, and it seeks to carry on that tradition as it increases its leadership role in the market.
