

# **REPORT FOURTH-QUARTER AND FULL-YEAR 2024**

# SOILTECH REPORTS RECORD FOURTH QUARTER AND FULL-YEAR 2024

# Fourth quarter

The fourth quarter was a very strong quarter for Soiltech as revenue passed the NOK 80 million mark for the first time, with an adjusted EBITDA of over NOK 25 million. The strong performance was driven by a significant growth in the demand for our solid waste handling services. High personnel utilization further strengthened results, resulting in an adjusted EBITDA margin of 32%.

"With three new large contracts already awarded in 2025 - OMV Petrom (Transocean Barents), Equinor (Grane) and Northern Ocean (Deepsea Bollsta) – we are in an excellent position to grow our business further and continue to deliver value to our customers. As these projects start up during 2025, they are expected to add more than NOK 100 million to our top line on an annual basis. The award of these contracts demonstrates Soiltech's ability to grow our business, driven by our operating excellence and focus on technology improvement", says Soiltech CEO Jan Erik Tveteraas.

# Fourth Quarter Highlights

- Revenue of NOK 80.7 million, +39% year on year (YoY)
- Adjusted EBITDA of NOK 25.8 million, +90% YoY
- Adjusted EBITDA Margin of 32%, up from 23% YoY
- Profit before tax (adjusted)<sup>1</sup> of NOK 15.8 million, +151% YoY

# Full Year 2024

For the full year 2024, Soiltech delivered another strong year, achieving a top-line growth of 20%, consistent with our historical track record of solid growth. Revenue reached NOK 274 million, with notable growth in our two main service categories:

- Fluid treatment: +14% YoY
- Solid waste handling: +57% YoY

Commercial uptime was 100% across all projects.

Adjusted EBITDA came in strongly with NOK 63.3 million, representing a growth of 24% YoY, with an adjusted EBITDA margin increasing slightly YoY to 23%, an increase of 1% YoY.

"We are pleased to see an increase in the customer demand for our technologies. In 2025, we expect to grow our Solid waste handling business further, across GEO markets, in line with our strategy of being a full-service provider of drilling waste management services", says Jan Erik Tveteraas.

# Full-year 2024 Highlights

- Revenue NOK 274.0 million, +20% YoY
- Adjusted EBITDA NOK 63.3 million, +24% YoY
- Adjusted EBITDA Margin 23%, +1% YoY
- Profit before tax (adjusted)<sup>2</sup> NOK 27.8 million, +9.5% YoY

# **Revenue by service**

Full-year 2024 (2023)

- Fluid treatment 64% (69%)
- Solid waste handling 25% (19%)
- Cleaning services 7% (7%)
- Associated services 4% (5%)

In 2024, Soiltech had operations in Norway, UK, the Netherlands, Denmark, Mauretania, Cyprus, Suriname, and Mexico. Norway stood for 76% (73%) of the revenues and International 24% (27%).

# **NEW CONTRACTS**

 Soiltech received a call-off under the Frame agreement with **Equinor** to provide solid

waste (drill cuttings) handling on Statfjord B, with startup in Q4 2024. This is a sizable contract with potential of becoming a large contract.

 Soiltech announced a strategic partnership with Estedama in Saudi Arabia. By combining Soiltech's innovative and market leading waste management technologies with Estedama's strong position in the oil & gas industry, the parties will be able to offer a complete range of sustainable waste management services in the Kingdom.

#### Post quarter contract awards

Soiltech was awarded three key, large contracts in January 2025. For these contracts we will use equipment in stock, and cutting receiving tanks on the PSV to be delivered in Q1.

 Soiltech ASA and Soiltech Romania SRL were awarded a contract by OMV Petrom
S.A. to provide cuttings containment and transfer equipment and related services to the Neptun Deep project. Neptun Deep is the largest natural gas project in the Romanian Black Sea.

The services will be performed on the drilling rig Transocean Barents. The agreement is concluded for a period of 5 years, with an initial estimated contract value of USD 10 million for an estimated duration of 18 months. Commencement is anticipated in 2025. Soiltech will deliver a wide range of technologies to the Neptun Deep project for the containment and transfer of solid waste (drill cuttings), including equipment for storage on the rig and on the platform supply vessel (PSV). Tools for cleaning the rig and PSV storage tanks forms also a part of the scope.

- Soiltech was informed of the intention to award Soiltech an agreement with Northern Ocean for the delivery of Drilling waste management services on the harsh environment drilling rig **Deepsea Bollsta**. The contract is expected to commence in the second half of 2025. This is expected to be a large contract for Soiltech. Deepsea Bollsta will be working for Equinor in Norway for an estimated firm duration of two years, plus five one-year optional periods.
- Soiltech received a call-off order under the Frame agreement with Equinor to provide drilling waste management services on the Grane field in Norway. The services comprise of offshore provision of solid waste (drill cuttings) containment and handling. This is estimated to be a large contract for Soiltech. The expected startup is first quarter of 2025. The Frame agreement with Equinor has a duration until June 2026, option periods excluded, potentially 2034 including all option periods.

#### Definition of contract size

The contract size definition has been updated. Since our contracts are based on recurring revenues over a period, the contract size is defined as a contract's expected revenue generation over a 12-month period. On this basis, the expected total contract value may be calculated, taking into consideration the anticipated contract duration, which may consist of a fixed period followed by optional periods.

- A sizable contract has an estimated value of NOK 5 – 10 million over a 12-month period
- A substantial contract has an estimated value of NOK 10 – 20 million over a 12month period
- A large contract has an estimated value above NOK 20 million over a 12-month period

#### **CASH FLOW, FINANCING AND LIQUIDITY** Full year 2024

- Operating Cash Flow of NOK 39 million
- Investment Cash Flow of NOK -39 million
- Net Cash Flow of NOK 7.9 million
- Year-End Cash Position of NOK 34.7 million
- Unused Credit Facilities of NOK 39.6 million
- Net Interest-Bearing Debt of NOK 159 million, up from NOK 111 million
- Book equity of 47% at year-end

#### OUTLOOK

Soiltech's robust financial results, strong contract pipeline, and strategic partnerships position the company for further growth in 2025 and onwards. With major contracts already secured, and an expanding international footprint, we remain committed to deliver innovative, sustainable waste management solutions to our clients.

Soiltech is strategically well positioned to expand our market share across our full technology portfolio. We are optimistic about the market outlook as the demand for our services continues to rise, both in Norway and internationally.

The Board emphasizes that any forwardlooking statements contained in this report could depend on factors beyond its control and are subject to risks and uncertainties. Accordingly, actual results may differ materially.

#### ABOUT SOILTECH

Soiltech is an innovative technology company specializing in the treatment, recycling and sustainable handling of contaminated water and solid waste on site. Our technologies enable cost savings and lower CO2 emissions through waste reduction, waste recovery and reuse. The Company operates world-wide, with its head-office at Forus in Sandnes, Norway. ### Notes to the Consolidated interim financial statements

#### Note 1 – General information

Soiltech ASA (the 'Company') is a limited company domiciled in Norway. The registered office of the Company is Koppholen 25, 4313, Sandnes, Norway.

The Company is an innovative technology company specializing in the treatment, recycling and sustainable handling of contaminated water and solid industrial waste streams on site.

The Company was listed on Euronext Expand on 11.09.2024 with the ticker code 'STECH' and as part of the listing converted into a public limited company (Nw.: "Allmennaksjeselskap"). The consolidated financial statements comprise the financial statements of the Company and its subsidiaries (together referred to as the 'Group' or 'Soiltech').

The interim consolidated financial statements have not been subject to external audit.

#### Note 2 – Summary of general accounting policies

The Group has applied the same accounting policies and methods of computation in its interim consolidated financial statements as in its 2023 annual financial statements. Specific accounting policies related to the individual areas in the interim consolidated financial statements are described in the relevant notes.

#### **Basis for preparation**

These interim consolidated financial statements are presented in accordance with IAS 34 Interim Financial Reporting. They were authorised for issue by the board of directors on 19 February 2025. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the 2023 IFRS financial statement issued by the Company on the 15 of March 2024.

The interim consolidated financial statements are presented in Norwegian Kroner (NOK) and have been rounded to the nearest thousand unless otherwise stated. As a result of rounding adjustments, amounts and percentages may not add up to the total.

#### Accounting estimates and judgements

Items in the financial statements are to a varying degree affected by estimates and assumptions made by management, reference is made to the relevant notes for the affected items.

Estimates with a material impact on the interim financial statements, combined with a significant estimation uncertainty, consists of recognition of deferred tax asset (note 4)

#### **Segment information**

Given the uniform nature of the Group's services and the centralized management from its head office in Norway, the entire Group is considered as a single operating segment for internal reporting purposes.

#### New and amended IFRS standards

Of new standards and interpretations that are not mandatory for the current reporting period, none are expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

#### Share-based payment

There were allocated 125 000 new share options YTD 2024 to employees and board member.

Per 31.12.2024, there were 1 264 990 options outstanding.

#### Note 3 – Revenues

Total from major customers	178 242	168 500
Other (less than 10% each)	95 778	60 779
Total	274 020	229 279

# Note 4 – Income tax Accounting policies

The Group consists of companies subject to ordinary corporate taxation in Norway, and within the same tax group with respect to offsetting of deferred tax. Income tax is therefore recognized on the basis of a general application of IAS 12 without the need for further judgments or policies of significance.

# Basis for recognition of deferred tax assets

Deferred tax assets are recognized when it is probable that the company will have a sufficient profit for tax purposes in subsequent periods to utilize the tax asset. The Group recognize previously unrecognized deferred tax assets to the extent it has become probable that the Group can utilize the deferred tax asset. Similarly, the Group will reduce a deferred tax asset to the extent that the Group no longer regards it as probable that it can utilize the deferred tax asset. Deferred tax and deferred tax assets are measured on the basis of the expected future tax rates applicable to the companies in the Group where temporary differences have arisen based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Deferred tax and deferred tax assets are recognized at their nominal value and classified as non-current asset (non-current liabilities) in the consolidated statement of financial position.

#### Basis for tax expense in interim periods

The tax expense in interim periods is measured by multiplying profit before tax by estimated average annual effective income tax rate.

A difference between the estimated tax cost for 2023 and tax returns of TNOK 216 is recognized as part of the 2024 tax expense.

#### Note 5 - Cash and cash equivalents

Cash and cash equivalents comprise mostly ordinary bank deposits. The statement of cash flows is prepared using the indirect method. Interest income and expenses are presented as investing and financing activities, respectively.

Restricted cash		
(amounts in NOK 1000)	31.12.2024	31.12.2023

Non-current	72 959	86 609	
Current	13 940	20 207	

#### Note 6 – Borrowings

#### **Accounting policies**

Borrowings are initially recognized at fair value, including transaction costs directly attributable to the transaction, and are subsequently measured at amortized cost. There has not been any material transaction cost during the year.

#### Covenants

The loan facilities with Rogaland Sparebank has the following covenants: -Net-interest bearing debt (NIBD)/Earnings before interest taxes, depreciation and amortization (EBITDA) 12 month rolling < 4

-Book equity > 30%

-Approval from bank if dividend/group contribution

The covenants are tested quarterly, and the Company is not in breach with any of the covenants above.

#### Specification of borrowings - 31.12.2024

Carrying amount as at 31.12	44 674	159 568	44 094	110 760

#### Fair value

For items measured at amortized cost, carrying amount is considered to be a reasonable approximation to fair value.

#### Note 8 – Financial risk and capital management

The Group's policies for management of capital and financial risk aim to support the current strategy and target of maintaining a high rate of growth and developing prospective business opportunities. The Group's capital structure shall be robust enough to maintain the desired freedom of action and utilize growth opportunities, based on strict assessments relating to the allocation of capital. The Group debt financing consist of bank and leasing financing. The loan covenants to which the Group is subject play a key role in how capital is managed and allocated, to maintain a low financing risk and financial flexibility. See note 6 borrowings for further details on the Group's financing.

#### Market risk

The Group's exposure to financial market risk is mainly related to interest rates on external financing and various forms of currency risks. The Group has a diversified client list and evaluates changes in pricing structure contract by contract, as part of its mitigation process to cover for increased interest cost. The Group has not entered into any interest swap agreements.

#### **Currency risk**

The Group has Norwegian kroner (NOK) as its base currency. However, through its operations outside Norway, the Group is exposed to fluctuations in certain exchange rates, mainly Euro (EUR), British Pound (GBP) and American dollar (USD). The Group also has currency risks linked to both balance sheet monetary items and investments in foreign countries.

#### Interest rate risk

The Company loan and leasing agreements have floating interest rates based on NIBOR according to the financial strategy, see Note 6 borrowings, and is thereby influenced by changes in the interest market. A change of increase of 1 percentage point in 3M NIBOR means a change in yearly net interest expenses of approximately MNOK 1.8.

#### **Credit risk**

Assets that may give rise to credit risk comprise mainly trade receivables and bank deposits. For the latter, the counterparties are mainly banks established in the Nordic countries, which indicates that the credit risk should be regarded as negligible. Trade receivables are characterized by a concentration in the customer base, in terms of country and industry. The customers,

however, are primarily large companies with high credit ratings, and the agreed payment terms in the contracts typically ensure that any overdue amounts are kept at low level. Thus, credit losses have historically been insignificant.

#### Liquidity risk

As at year-end, the Group's portfolio of loans and loan facilities is well diversified both with regards to maturity profile and lenders. In June 2024 the Company entered a 7-year loan facility of MNOK 30 with Sandnes Sparebank. Together with existing loan facility of MNOK 148 with Sandnes Sparebank, the facilities total MNOK 178.

The unused portion of the credit facilities was MNOK 39.6 as at 31.12.2024.

# Note 10 – Share capital and shareholder information

#### Share capital and ownership structure

The share capital of the parent company, Soiltech ASA, amounts to NOK 1 035 201 as of 31 December 2024, and consists of a total of 7,963,087 ordinary shares with a nominal value of NOK 0.13. Increase in share capital results from merger with Oceanteam, with the merger consideration being settled by issuance of 527 947 new shares, as such the share capital increased from NOK 740 543 to NOK 793 338. In addition, the company was listed on Euronext expand.

In connection with this transaction, NOK 238 001.31 was transferred from unrestricted equity to share capital to meet the minimum share capital requirement for public limited companies. As such the share capital was increased from NOK 793 338 to NOK 1 031 339 by transfer of NOK 238 001.31 from the Company's unrestricted equity to the Company's share capital. The capital increase is carried out through an increase of the par value of the Company's shares by NOK 0.03 per share from NOK 0.10 to NOK 0.13 per share. Additionally, 29,710 options were exercised. As such the share capital was increased from 1 031 339 to 1 035 201.

#### Shareholders as of 31.12.2024

# Note 11 – Merger with Oceanteam ASA

Soiltech ASA completed a merger with Oceanteam ASA on September 11, 2024. The merger plan was signed 30 Mai 2024 and approved by the general meetings of the respective companies on 4 July 2024. The main purpose of the merger was to achieve a listing of Soiltech ASA on the Euronext Expand marketplace.

As part of the merger, Soiltech ASA issued 527 947 new shares as consideration to the shareholders of Oceanteam ASA. This consideration was based on Oceanteam ASA having a market value of NOK 31.67 million at the date of entering into the merger agreement.

At the time of the merger, Oceanteam ASA was essentially an empty shell company without any operational activities. The only significant asset in the company was a cash balance of NOK 19.1 million. Therefore, the merger has been accounted for as a share-based payment transaction in accordance with IFRS 2. The measurement of the transaction is based on the value of the shares in Oceanteam ASA at the transaction date, which was September 11, 2024. At this time, the shares were traded at NOK 0.93, corresponding to a market value for the company of NOK 30.8 million.

The difference between the cash balance in Oceanteam ASA (NOK 19.1 million) and the fair value of the company is considered to reflect the value of the stock exchange listing, including access to new capital and recognized investors. This difference, amounting to NOK 12,8 million, has been recognized as an expense in the financial statements of Soiltech ASA in the line item "Expenses related to Merger & IPO", as it does not meet the criteria to be recognized as an asset on the balance sheet.

In addition to the expenses above, Soiltech ASA has incurred various transaction costs in connection with the process of completing the merger and subsequent listing on Euronext Expand, amounting to NOK 10.1 million in total. Of these, NOK 5.3 million is considered to be incremental costs directly attributable to the equity transaction and has therefore been recognized as a deduction of equity, reducing the capital increase from the merger. The remaining NOK 5.0 million has been recognized as an expense and is included in the line item «Expenses related to Merger & IPO» in the income statement.

# Note 12 – Events after the reporting period

After the balance sheet date there are only events in the ordinary course of business and no events of an adjusting or non-adjusting nature.

# **Appendix: Alternative Performance Measures**

#### **Alternative Performance Measures**

The Group presents certain alternative measures of financial performance, financial position and cash flows that are not defined or specified in IFRS Accounting Standards. The Group considers these measures to provide valuable supplementary information for Management, Board of Directors and investors, as they provide useful additional information regarding the Group's financial performance and position. As not all companies define and calculate these measures in the same way, they are not always directly comparable with those used by other companies. These measures should not be regarded as replacing measures that are defined or specified in IFRS Accounting Standards but should be considered as supplemental financial information. In this Prospectus, the Alternative Performance Measures used by the Group are defined, explained and reconciled to the most directly reconcilable line item, subtotal or total presented in the financial statements of the corresponding period.

The APMs used by the Group are set out below:

#### **Operating cost**

Operating cost is defined as the total of cost of materials, personnel expenses and other operating expenses less expenses related to onshore personnel and other onshore operating expenses, share incentive program, severance payment, legal cost related to Merger & IPO and other items defined by the Management to not relate to offshore operations. Management defines that Operating cost illustrates the expenses directly related to offshore activities. This measure provides additional information for the Management, Board of Directors and investors in order to evaluate underlying profitability of offshore operating activities and their ability to generate cash.

#### <u>SG&A</u>

Selling, general and administrative expenses ("SG&A") is defined as the sum of Cost of materials, Personnel expenses and other operating expenses less operating costs (as defined above), share incentive program, severance payment, legal cost related to Merger & IPO and other items defined by management that impact comparability between periods. Management defines that SG&A illustrates the expenses directly related to onshore support activities. This measure provides additional information for management, the board and investors, in order to evaluate underlying profitability and their ability to generate cash.

#### Gross Profit and Gross profit margin

Gross Profit is defined as total operating income less Operating cost (as defined above). Gross profit margin is defined as gross profit divided by total operating income. Gross profit and Gross profit margin provide additional information for Management, Board of Directors and investors to evaluate the underlying profitability generated from offshore operating activities.

#### **EBITDA and EBITDA margin**

EBITDA is defined as Operating profit before other gains, impairment, depreciation and amortization. EBITDA is defined as EBITDA divided by total operating income. These measures provide additional information for Management, Board of Directors and investors to evaluate underlying profitability of operating activities and their ability to generate cash before investments in fixed assets and service of debt.

#### Adjusted EBITDA and Adjusted EBITDA margin

Adjusted EBITDA is defined as EBITDA (as defined above) adjusted for items affecting comparability such as expenses related to share incentive programs, severance payment, legal cost related to Merger & IPO and other items defined by Management that impact comparability. Adjusted EBITDA margin is defined as Adjusted EBITDA divided by total operating income. These measures provide additional information for Management, Board of Directors and investors to evaluate underlying profitability of operating activities and their ability to generate cash before investments in fixed assets and service of debt.

#### Net interest-bearing debt

Net interest-bearing debt is defined as the total of non-current borrowings, non-current lease liabilities, current borrowings and current lease liabilities less cash and cash equivalents. This measure provides additional information for Management, Board of Directors and investors to assess the Group's financial indebtedness and as an input to assess its capacity to meet its financial commitments.

#### Equity ratio

Equity ratio is defined as total equity divided by total assets. This measure provides additional information for Management, Board of Directors and investors to assess the Group's financial position and capital structure.
